

Gymnastics								
	Nursery (Physical Development)	Reception (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	I can explore and use a range of ways of moving, including walking, running, jumping, hopping, skipping, crawling, rolling, sliding and travelling sideways. I can move confidently through space, adjusting my speed and direction to avoid obstacles and other people. I can explore different body shapes and ways of travelling over, under, through and around equipment.	I can move with increasing control and coordination in a range of ways. I can move confidently and safely through space, changing direction and speed when needed. I can balance with increasing control and explore different body shapes. I can create and perform a simple sequence of movements using floor and low apparatus, including a bench.	I can perform a range of basic body shapes with control. I can perform basic jumps, including a straight jump and star jump, landing safely with control. I can perform a tuck rock, tuck roll and rocket roll with pointed toes. I can perform a simple balance and hold it with control for three seconds. I can perform a bunny hop, placing my hands down before my	I can perform a range of body shapes with strength and control. I can perform straight, star and tuck jumps with control, landing safely. I can perform a tuck rock, tuck roll, forward roll and dish/arch roll with increasing control. I can perform and hold balances using one or more parts of my body. I can perform a bunny hop with flat hands and straight arms.	I can perform a range of body shapes with good control and body tension. I can perform a straight jump with a half turn, demonstrating a controlled landing. I can perform a teddy bear roll with control. I can perform point and patch balances and hold them securely. I can link movements into a short sequence on a mat, varying level and direction and	I can perform a range of body shapes with control when applying them within different gymnastic skills. I can perform a range of jumps and use them when travelling across a mat. I can perform a teddy bear roll with a partner or group as part of a coordinated sequence, maintaining good body position and pointed toes. I can perform matching and mirroring balances with a	I can perform increasingly complex body shapes with control and flexibility. I can perform increasingly complex jumps, including tuck, pike and scissor-kick jumps, demonstrating controlled take-off and landing. I can perform a T-roll with control. I can perform symmetrical and asymmetrical balances individually and with others.	I can perform complex body shapes within sequences and individual skills, demonstrating control and flexibility. I can perform increasingly complex jumps and travelling movements on and off apparatus, including tuck and pike jumps, scissor kicks and cat leaps. I can perform a side star roll, T-roll with good body position and pointed toes, and backward roll with control.

		I can talk about what I liked about my own or someone else's sequence. I can make a simple improvement to a sequence after feedback.	feet. I can link movements to create and perform a simple sequence, for example a roll, jump and roll. I can move on and off low apparatus safely and with control.	I can link a roll, jump and balance to create a controlled sequence on floor and apparatus. I can move on, off and across apparatus safely, demonstrating control and body tension.	demonstrating control. I can perform a bunny hop across a mat and transfer this action onto/across low benches and apparatus. I can use hopscotch actions to begin developing the hurdle step required for apparatus work.	partner and apply these on apparatus. I can perform a bunny hop onto a range of apparatus safely and with control. I can create and perform sequences on mats and apparatus that use different levels and include unison. I can use hopscotch actions with increasing fluency to develop a hurdle step onto low apparatus.	I can perform a squat-on and squat-off using a range of apparatus safely and with control. I can select and link gymnastic skills to create a fluent sequence, cooperating, communicating and collaborating effectively with others. I can perform a hurdle step on the floor and transfer this to a springboard. I can perform a cartwheel on the floor and apply the movement using appropriate apparatus.ratus	I can perform and apply a range of balances, including counter-balance and counter-tension. I can perform a squat-on and squat-off using apparatus following a controlled run-up, with or without a springboard. I can select, combine and refine skills to create and perform fluent sequences individually and with others. I can perform a hurdle step on the floor and springboard and apply this when moving onto apparatus. I can perform increasingly complex inverted skills, including shoulder stands, cartwheels, teddy bear rolls,
--	--	--	--	---	--	--	---	---

								headstands and handstands, with appropriate support and progression. I can apply my skills in team sequence and vault challenges, evaluating performance and identifying improvements.
Vocabulary	Balance, walk, climb, travel, move, gallop, sideways, forwards, backwards, roll, crawl, shuffle, slide, arms, legs, hands, feet, shape.	Balance, control, space, direction, bench, apparatus, sequence, land, still, safety, evaluate, improve, gymnast.	Perform, shape, star jump, straight jump, tuck rock, tuck roll, rocket roll, bunny hop, balance, sequence, landing.	Tuck jump, forward roll, dish, arch, body tension, apparatus, control.	Half turn, teddy bear roll, point balance, patch balance, level, direction, hurdle step.	Matching, mirroring, unison, travel, coordination, fluency.	Flexibility, pike, scissor kick, T-roll, symmetrical, asymmetrical, springboard, cartwheel.	Vault, cat leap, counter-balance, counter-tension, inverted, shoulder stand, headstand, handstand, refine.

Invasion Games - including ball game, first PE, enjoy a ball, handball, quicksticks, ball skills, tag rugby, football, netball and basketball

	Nursery (Physical Development)	Reception (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	I can catch a large ball with increasing control. I can throw a ball or beanbag towards a large target, including a hoop or low net. I can explore different ways of moving, including walking, running, jumping, hopping and skipping. I can move confidently through space, adjusting my speed and direction to avoid obstacles and other people. I can find and move into an appropriate space. I can follow simple boundaries when	I can throw and catch a ball, beanbag or quoit with increasing control. I can kick a ball towards a target or goal. I can control a ball with my foot while moving around obstacles. I can throw an object towards a target with increasing accuracy. I can move confidently and safely through space, changing direction and speed when needed. I can take part in races and simple team games, including relays. I can cooperate with and support	I can catch and receive a ball safely and pass it with some control using my hands, feet or appropriate equipment. I can develop basic footwork, including stopping, starting and landing with control in adapted games. I can recognise and move into space and pass towards a teammate who is in space. I can follow an opponent during an adapted game. I can score in different ways using hoops, goals and targets. I can begin to recognise simple principles of	I can use different types of pass with my hands, feet or appropriate equipment with increasing control. I can apply simple footwork rules in adapted games, including stopping and not travelling with the ball where appropriate. I can move into space to receive a ball and pass to a teammate in space. I can follow and mark an opponent and begin to intercept the ball. I can select and use different ways of scoring within a game. I can develop and apply simple	I can pass and receive a ball with increasing control and begin to apply these skills within a game. I can adapt my footwork to the game being played, for example a stride stop or jump stop in netball and three steps in handball. I can use a dodge to create space and receive a pass. I can mark an opponent effectively, staying ready to move and react. I can adapt my shooting technique to the activity, including shooting towards a hoop, target or goal.	I can pass and receive with increasing control and begin to select an appropriate pass for the situation. I can change direction and accelerate effectively within a game. I can use different dodges to create space in which to receive the ball. I can mark an opponent using an effective body position and respond to their movement. I can use an appropriate shooting technique, including bending my knees and controlling the release of the ball where appropriate.	I can select and execute an appropriate pass within a game and move into space after passing. I can receive the ball while moving and change direction quickly and with control. I can select and perform different dodges and movements to create space and receive the ball. I can defend an opponent and attempt to anticipate and intercept passes. I can select an appropriate shooting technique for the game and situation. I can apply attacking and	I can select and perform a range of passes with precision and move quickly into space to receive another pass. I can apply appropriate footwork with speed and control, changing direction effectively to create passing opportunities. I can select and perform a range of dodges to create space in practices and competitive game situations. I can defend effectively, anticipate play and intercept the ball during a game. I can shoot with increasing precision and

	taking part in physical games. I can take part in simple races and games alongside others.	others when taking part in a team activity.	attacking and defending. I can follow simple rules in adapted games and understand that rules help to keep games safe and fair.	tactics for attacking and defending. I can follow the rules of different adapted games, demonstrating fair play and respect for others.	I can apply basic attacking and defending principles, including creating or denying space and attempting to regain possession. I can understand and apply key sport-specific rules within adapted games.	I can make decisions about when and where to move when my team is in and out of possession. I can understand and apply the key rules of the game and begin to officiate adapted games using appropriate terminology.	defending principles in game situations, including positioning, formations, maintaining possession and regaining possession. I can communicate and collaborate with my team to discuss and apply tactics. I can consistently apply the key rules of different invasion games and begin to officiate with increasing confidence.	accuracy and respond appropriately to a rebound. I can select and apply attacking and defending principles, including positioning, maintaining or regaining possession and creating or denying space. I can communicate and collaborate with teammates to select, apply and adapt tactics in response to an opponent. I can understand and consistently apply rules across different invasion games and officiate with confidence using appropriate vocabulary. I can evaluate the effectiveness of individual and team tactics and suggest changes that could
--	--	--	---	---	--	--	--	---

								improve performance.
Vocabulary	ball, throw, catch, kick, beanbag, quoit, net, target, hoop, space, boundary, race.	control, aim, dribble, pass, relay, team, cooperate, direction, accuracy.	receive, footwork, spatial awareness, attack, defend, opponent, fair play.	coordination, tactics, mark, intercept, teammate.	dodge, possession, regain, deny space, stride stop, jump stop.	accelerate, officiate, terminology, in possession, out of possession.	formation, anticipate, maintain possession, collaborate, communicate.	precision, rebound, strategy, adapt, evaluate, officiating.

Multi - Skills								
	Nursery (Physical Development)	Reception (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	I can run and stop with increasing control. I can explore skipping as a way of travelling. I can jump and hop, bending my knees to take off and land. I can throw larger balls and beanbags into space and towards simple targets. I can balance when stationary and when moving. I can explore different ways of moving my body and changing direction.	I can explore different ways of balancing when stationary and moving. I can move balls and other equipment using different parts of my body, developing coordination. I can move in different ways and change direction, developing agility. I can combine simple movements with increasing control. I can cooperate with others, take turns and contribute to simple team activities and challenges.	I can balance with control on lines and use equipment to develop different types of balance. I can change direction with increasing control, developing my agility. I can coordinate different parts of my body while moving and using equipment. I can combine simple movements, including running, jumping, throwing and catching, with increasing control. I can cooperate and compete appropriately with others and challenge myself in a range of	I can balance on low equipment with good control. I can change direction quickly while maintaining balance and control. I can coordinate my body while moving at different speeds and using a range of equipment. I can combine running, jumping, throwing, catching and travelling actions with increasing fluency. I can complete individual and team challenges, including running and obstacle activities, and work to improve my performance.	I can balance on different parts of my body while moving with control. I can change direction at speed while maintaining balance and control. I can coordinate my body to perform combinations of movements and actions. I can apply balance, agility and coordination within increasingly challenging activities. I can complete a range of physical challenges and fitness tests and work towards achieving a personal best.	I can balance confidently using different body parts and equipment. I can change direction at speed using increasingly effective technique. I can coordinate my body efficiently to perform combinations of movements and actions. I can apply balance, agility and coordination with control in increasingly complex activities. I can complete a range of physical challenges and fitness tests confidently and achieve personal bests.	I can maintain balance while moving and simultaneously controlling equipment or performing another action. I can change direction quickly and efficiently while using equipment. I can coordinate increasingly complex combinations of movements and actions with control. I can test and measure my balance, agility and coordination confidently and accurately. I can compare my performance with previous attempts and use this information to	I can maintain balance accurately while moving, controlling equipment or performing another action. I can change direction at speed while maintaining balance and control and using equipment. I can coordinate both sides of my body with fluency when performing complex combinations of movements and actions. I can complete physical tests with fluency and accurately measure and record my performance. I can evaluate previous performance,

			games and activities.				work towards a personal best.	identify areas for improvement and adapt my approach to improve my personal best. I can apply balance, agility and coordination confidently and effectively across different physical activities.
Vocabulary	Balance, hop, skip, jump, run, stop, catch, throw, bounce, roll, push, pull, grip.	Control, coordination, space, direction, balance, travel, underarm, overarm, team	Balance, coordination, agility, direction, challenge.	Speed, control, fluency, combine.	Personal best, performance, apply.	Technique, efficiency.	Accuracy, measure, compare.	Evaluate, improve, adapt, transfer.

Dance								
	Nursery (Physical Development)	Reception (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	I can join in with dancing, action songs and ring games.	I can move with increasing control and coordination when dancing.	I can listen to music and begin to move in time with it.	I can move in time with music and begin to show expression through my movements.	I can collaborate with others to create an appropriate dance warm-up.	I can cooperate with others to create a dance warm-up and begin to take a leadership role.	I can cooperate and collaborate with others to create a warm-up that uses a variety of movement patterns.	I can cooperate, communicate and collaborate with others to create and lead a warm-up with good rhythm and timing.
	I can begin to move rhythmically in response to music.	I can move confidently and safely through space when dancing.	I can perform a range of basic dance movements.	I can perform dance movements with increasing control.	I can use a stimulus to generate ideas for movement and create a dance.	I can respond imaginatively to a stimulus and translate ideas into movement.	I can translate ideas from a stimulus into movement, demonstrating control and fluency.	I can translate ideas from a stimulus into movement, demonstrating expression, precision, control and fluency.
	I can imitate movements in response to music.	I can explore different movements and experiment with changing them.	I can perform movements at different levels.	I can use a variety of levels within a dance.	I can perform movements in unison with a partner.	I can perform a range of movement patterns in unison with a partner or group.	I can perform in unison within a group, maintaining timing with others.	I can perform in unison within a group, demonstrating accurate timing, energy and strength.
	I can use movement to express ideas, experiences and feelings.	I can use movement to represent my own ideas, thoughts and feelings.	I can use travelling actions, including stepping, skipping and jumping, within a dance.	I can travel in different directions using actions such as sliding, turning and gesturing.	I can perform movements in canon as part of a group.	I can perform a range of movement patterns in canon with a group.	I can perform in canon with accurate timing.	I can perform in canon within a group, demonstrating accurate timing, energy and strength.
	I can create my own movements in response to music.	I can create and perform a simple sequence of movements, including movements that communicate a story or idea.	I can perform simple dance movements and short sequences with increasing control.	I can remember, link and perform a sequence of dance movements with control and in time with the music.	I can use different levels and pathways when composing and performing a dance.	I can use different levels, pathways and directions when composing and performing a dance.	I can perform in canon with accurate timing.	I can perform in canon within a group, demonstrating accurate timing, energy and strength.
	I can change the speed of my movements in response to music.	I can talk about what I liked about my own or		I can make simple changes to	I can link movements to create and perform a coherent	I can combine movement		

		someone else's dance. I can make a simple improvement to a dance after feedback.		improve my performance.	movement sequence.	patterns to create a controlled and purposeful dance sequence.	I can evaluate my own and others' performances and use feedback to refine control, timing and fluency. I can select and combine movement patterns to compose a fluent, expressive and purposeful dance. I can evaluate and refine a performance, making purposeful changes to improve precision, expression, timing and overall effect.	I can use levels, pathways, travelling actions and space purposefully, demonstrating timing and musicality.
Vocabulary	Move, music, dance, rhythm, fast, slow, stop, start, space, create.	Travel, direction, respond, feeling, sequence, audience, control, evaluate, improve.	Movement, level, perform, travelling, timing.	Expression, gesture, slide, turn, direction, link.	Stimulus, pathway, unison, canon, compose.	Movement pattern, leadership, imaginative, combine.	Fluency, spatial awareness, refine, feedback.	Musicality, precision, energy, strength, expressive, evaluate.

Tennis							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	I can throw and catch to self with a soft ball and to bounce catch to self Hand eye coordination passing ball to a partner I can balance an object e.g. beanbag on racket I can move the ball on floor with hand in a variety of ways I can push a ball with throw down strips to develop hand eye coordination	I can throw and catch a small, ball improving control- bounce catch to self/ partner I can balance a ball on racket Racket familiarisation- I can move a ball with racket in forehand/backhand position Introduce modified games - eg hand tennis Small-sided adapted games. Begin to develop tactics in the adapted games	I can throw and catch from one hand to the other and bounce catch into a target with a partner I can balance a ball on racket with control Increasing the control tapping ball to a partner (who is catching the ball) Racket familiarisation- I can move a ball with racket in forehand and backhand position whilst moving I can play a modified game Develop tactics for beating an opponent	I can move my body position to catch a ball I can control a ball on racket when moving - varying speed I can hit a ball into a target (with one bounce) I can hit ball across the floor with forehand/backhand position I can play a modified game using skills e.g forehand Adapted games, with variations of rules, begin to apply some basic principles	I can move with balance and control to catch a ball I can hit a ball into a target from a variety of distances/ angles with no bounce I can hit/bounce ball on racket when moving Hit ball in forehand/ backhand position with drop feed Play a game communicating as a team I can play adapted games, Children encouraged to think of tactics	I can move to hit a ball with some control I can hit/ bounce a ball with control when moving at different speeds I can serve diagonally with underarm/overarm throwing into target/game. Begin to use with racket to serve into a target I can move into position to hit a ball with forehand/ backhand . in skills practice and game I can communicate and collaborate as a pair to beat opponents I am developing tactics e.g working as a team, supporting each other, communicating	I can move in a variety of directions (using footwork) when hitting a ball I can hit/bounce ball to a partner with control I can serve diagonally under/overarm in a game of mini tennis Keep on toes using quick feet to hit a ball in game in forehand/ backhand position I can use techniques learned and apply in a game situation. In pairs, I can discuss tactics of attacking and defending in tennis (communicate and collaborate)

Vocabulary	Throw, catch, balance, hand-eye coordination	Throw, catch, balance, hand-eye coordination, forehand, backhand	Throw, catch, balance, hand-eye coordination, forehand, backhand, tactics	Throw, catch, balance, hand-eye coordination, forehand, backhand, tactics, direction, rules	Throw, catch, balance, hand-eye coordination, forehand, backhand, tactics, direction, rules, volley	Throw, catch, balance, hand-eye coordination, forehand, backhand, tactics, direction, rules, volley, communication	Throw, catch, balance, hand-eye coordination, forehand, backhand, tactics, direction, rules, volley, communication
-------------------	--	---	---	--	--	--	--

Mini Muay Thai							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop balance, coordination and controlled movement that provide foundations for later Mini Muay Thai activities. I can balance using my left and right sides in different positions. I can coordinate my arms when performing simple controlled movements. I can balance momentarily on one leg on both sides of my body. I can perform simple controlled kicking actions while maintaining balance. I can respond to simple movement and defensive games.	I can adopt a right- and left-sided stance with increasing balance and control. I can adopt a basic guard position. I can perform a controlled jab using the lead hand. I can perform an uppercut on both sides with increasing coordination. I can perform a controlled knee-strike action while maintaining balance. I can perform a controlled front-kick action while maintaining balance. I can adopt a shin-check position while maintaining balance and guard. I can combine simple techniques in short sequences.	I can maintain an appropriate guard while performing techniques from right- and left-sided stances. I can perform a jab-cross combination with increasing coordination. I can perform uppercuts on both sides with increasing control. I can perform front and rear knee-strike actions while maintaining balance. I can perform front and rear kicking actions with increasing coordination. I can perform a shin check while maintaining my balance and guard. I can link techniques into controlled	I can maintain an effective stance and guard while performing different techniques. I can perform a jab-cross combination while maintaining balance and guard. I can perform uppercut and hook actions on both sides while maintaining an appropriate guard. I can perform knee-strike actions while maintaining balance and control. I can return efficiently to an appropriate stance following a defensive shin check. I can perform controlled kicking actions while maintaining balance and guard.	I can switch between right- and left-sided stances while maintaining an effective guard. I can perform jab-cross combinations with control and coordination from different stances. I can perform uppercut and hook actions from the front and rear while maintaining my guard. I can perform front and rear knee-strike actions with increasing control. I can perform front and rear kicking actions and return efficiently to an appropriate stance. I can perform a shin check with increasing control and flexibility.	I can react and change stance appropriately when performing different techniques. I can perform jab-cross combinations with increasing speed and accuracy. I can perform uppercut and hook combinations fluently from both sides. I can perform controlled knee-strike actions using appropriate training equipment, including focus mitts or a bag. I can perform controlled kicking actions at different levels using both sides of my body. I can perform a shin check in isolation with control and fluency.	I can react and adapt my stance quickly and appropriately when performing different techniques. I can perform jab-cross combinations with speed, accuracy and control using both sides. I can incorporate uppercut and hook actions into fluent combinations with increasing speed and accuracy. I can perform controlled knee-strike actions with fluency using appropriate training equipment. I can perform front and rear kicking actions with control, speed and accuracy. I can select and use a shin check appropriately within

	I can combine simple movements with increasing coordination.	I can challenge myself to improve my control and coordination.	combinations, demonstrating balance and coordination. I can evaluate my own performance and challenge myself to improve.	I can combine techniques with increasing flexibility, control, balance and strength.	I can remember and perform increasingly complex combinations of techniques.	I can remember, perform and create increasingly complex combinations of techniques. I can communicate and collaborate with others to create a short Mini Muay Thai sequence or activity.	defensive combinations. I can perform increasingly complex combinations demonstrating flexibility, control, balance, coordination and strength. I can work collaboratively to create a Mini Muay Thai activity or sequence and confidently lead others through it. I can evaluate my technique and use feedback to refine my performance.
Vocabulary	Balance, control, coordination, left, right, movement.	Stance, guard, jab, uppercut, knee strike, front kick, shin check.	Jab-cross, front, rear, combination, coordination.	Hook, defensive, technique, strength, flexibility.	Switch stance, reset, sequence, control.	Accuracy, fluency, focus mitt, combination, collaborate.	React, adapt, refine, lead, evaluate, precision.

Yoga							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children explore balance, body control and movement that provide foundations for later yoga activities. I can explore different static and moving body positions. I can hold simple positions while maintaining my balance. I can take part in short periods of calm and relaxation. I can use my body to create different shapes. I can use my imagination to create animal-inspired shapes and movements. I can listen and respond to a story	I can perform a range of basic yoga poses with increasing balance and control. I can relax my body when performing a rest pose. I can perform Sun Pose as an introduction to Sun Salutation. I can perform simple challenge poses, including Snake Pose. I can link simple yoga poses to represent a story or idea.	I can perform yoga poses with increasing core strength, flexibility, balance and control. I can relax in a rest pose and begin to focus on controlled breathing. I can perform Sun Pose with control as part of my preparation for Sun Salutation. I can perform increasingly challenging balances, including Tree Pose. I can select and link yoga poses to create a simple sequence or story.	I can perform increasingly complex yoga poses with control and flexibility. I can maintain a calm position and use controlled breathing during relaxation. I can perform Cobra Pose as part of my developing understanding of Sun Salutation. I can perform increasingly challenging balances, including Swaying Tree Pose. I can link poses together with increasing control. I can collaborate with others to create a short yoga routine.	I can perform increasingly complex yoga poses, demonstrating core strength, flexibility and control. I can use controlled breathing while maintaining different poses. I can perform and link individual poses that contribute towards Sun Salutation, including Tree, Downward Dog and Cobra. I can perform increasingly challenging poses and balances with control and fluency. I can collaborate with others to create a yoga routine and teach it to others.	I can perform complex yoga poses with control, core strength and flexibility. I can coordinate controlled breathing with a range of poses and use breathing during relaxation. I can remember and perform a complete Sun Salutation with increasing fluency. I can perform extended and increasingly challenging poses with control. I can select and link poses to create a controlled and purposeful yoga sequence. I can collaborate with others to create and perform a yoga routine.	I can perform complex yoga poses with sustained core strength, flexibility, balance and control. I can coordinate controlled breathing with movement, poses and periods of relaxation. I can perform Sun Salutation fluently and link it effectively with other yoga movements. I can adapt and extend familiar poses to create increasingly challenging movements and balances. I can select, combine and sequence poses to create a fluent and purposeful yoga routine. I can communicate and collaborate with others when creating and

	through movement and body shapes.						performing a routine. I can evaluate my performance and use feedback to improve my control, balance and fluency.
Vocabulary	Balance, shape, movement, still, relaxation, control.	Yoga, pose, rest pose, Sun Pose, Snake Pose.	Flexibility, core strength, breathing, Sun Salutation, Tree Pose, sequence.	Cobra Pose, Swaying Tree, controlled breathing, routine, collaborate.	Downward Dog, fluency, link, teach.	Extended pose, purposeful, transition, sequence.	Sustained, adapt, refine, evaluate, flow.

Kwik Cricket							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop the fundamental movement and coordination that provide foundations for later striking and fielding activities. I can roll a ball towards another person and move to stop a rolling ball. I can send an object underarm towards another person or a target. I can explore throwing and catching independently and with another person. I can develop hand-eye coordination by tracking, sending	I can roll and stop a ball using one or two hands. I can throw and catch a ball with increasing control. I can bowl a ball underarm towards a target. I can strike a stationary ball from a tee using different bats. I can apply simple batting and fielding skills within a modified game. I can begin to recognise simple tactics when striking and fielding.	I can roll and stop a ball with increasing control and accuracy. I can throw underarm with increasing accuracy and catch a ball with control. I can bowl underarm towards a target with increasing accuracy and control. I can adopt an appropriate grip and position when using a bat. I can strike a stationary ball from a tee with increasing control. I can work cooperatively with others when fielding.	I can move into position and begin to use the long-barrier technique to stop a moving ball. I can throw and catch with increasing accuracy and control. I can bowl underarm towards a wicket and begin to explore an overarm bowling action. I can use an appropriate grip and stance when batting. I can strike a stationary or simply fed ball with increasing control. I can apply batting and fielding skills within modified games.	I can move effectively into position and use the long-barrier technique to stop a ball arriving from different directions. I can throw and catch with increasing accuracy and control within modified games. I can bowl towards a wicket with increasing accuracy and control. I can strike a drop-fed or moving ball with increasing control. I can communicate and cooperate effectively with teammates when fielding. I can apply appropriate striking	I can select and use appropriate fielding techniques to stop, collect and return a moving ball. I can use underarm and overarm throws accurately over different distances. I can catch a ball with increasing consistency over different distances. I can bowl accurately towards a wicket with increasing control. I can strike a moving ball with increasing control and distance. I can communicate and collaborate effectively with teammates when batting and fielding.	I can select an effective fielding position in response to the game situation. I can select and execute an appropriate throw according to distance and situation. I can move efficiently into position to receive and catch a ball. I can bowl accurately towards a wicket with increasing consistency and control within a competitive game. I can strike a ball purposefully into space and vary the direction of my shots.

	and receiving objects. I can push and strike a ball away from my body using different equipment.		I can apply simple striking and fielding tactics within modified games.	I can understand and apply basic principles of striking and fielding.	and fielding tactics within adapted games. I can make simple decisions about positioning when batting and fielding.	I can select and apply tactics, including positioning and supporting teammates, within competitive activities.	I can select and apply appropriate batting and fielding techniques within competitive game situations. I can apply attacking and defending principles, including placement, positioning and decision-making. I can communicate and collaborate with teammates to select and adapt tactics. I can evaluate individual and team performance and identify how our tactics or techniques could be improved.
Vocabulary	Roll, stop, throw, catch, underarm, track, send, receive.	Bowl, bat, strike, field, target, batter.	Grip, stance, accuracy, teamwork, tactics.	Wicket, long barrier, bowling action, batting, positioning.	Drop feed, fielding position, cooperate, control.	Overarm, collect, return, placement, collaborate.	Attacking, defending, competitive, decision-making, adapt, evaluate.

Fitness							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop movement, balance, coordination and an early understanding of how physical activity affects their bodies. I can balance when stationary and when moving. I can coordinate different parts of my body when performing simple movements. I can take part in a range of energetic physical activities. I can repeat simple movements and exercises. I can recognise when physical activity makes my body feel different, for example feeling	I can maintain my balance when stationary and when moving. I can coordinate different parts of my body when performing a range of simple exercises. I can perform exercises with increasing control. I can complete simple physical challenges and record my performance. I can repeat an activity and try to improve my previous performance. I can describe some ways my body responds to exercise, including becoming warmer, breathing faster and	I can maintain balance and control while performing a range of fitness activities. I can coordinate my body when performing movements at different speeds. I can complete a range of physical challenges and record my own scores. I can compare my performance with a previous attempt and try to improve it. I can recognise that my pulse changes during physical activity. I can explain that different activities place different	I can maintain balance and control using both my preferred and non-preferred sides. I can coordinate combinations of movements with increasing control. I can complete a range of fitness exercises and record my performance. I can use my previous performance to work towards a personal best. I can identify changes in my pulse and breathing during and after exercise. I can explain how regular physical activity can help my body become stronger and fitter.	I can maintain balance and control when moving in different directions. I can coordinate increasingly complex combinations of movements efficiently. I can complete different fitness challenges and work towards improving my personal bests. I can identify different components of fitness, including strength, speed, stamina, flexibility and coordination. I can measure and compare my pulse before and after physical activity. I can recognise that different types of exercise develop	I can use core strength to maintain balance and control during increasingly challenging movements. I can coordinate both sides of my body when performing movements requiring increasing speed or power. I can accurately record and compare my performance with previous attempts and work towards a personal best. I can select exercises that develop different components of fitness. I can explain why an appropriate warm-up prepares	I can maintain balance and control when performing increasingly challenging and complex movements. I can perform combinations of movements with fluency, coordination and increasing speed. I can complete a range of fitness challenges, accurately record my performance and evaluate my progress towards a personal best. I can identify areas of my fitness that I want to improve and select appropriate activities to develop them. I can select and perform exercises

	warmer or breathing faster. I can begin to understand that physical activity, rest, food and water help to keep my body healthy.	my heart beating faster.	demands on my body.		different components of fitness.	the body for physical activity. I can explain why cooling down appropriately is important following physical activity. I can monitor changes in my pulse and use this information to recognise the effect of different levels of physical activity.	designed to develop specific components of fitness, including strength, speed, stamina, flexibility, coordination and power. I can plan an appropriate warm-up and cool-down for a physical activity. I can explain how exercise affects my body and use this knowledge to make appropriate choices during physical activity. I can evaluate my fitness performance and identify how I could improve it.
Vocabulary	Move, balance, exercise, active, body, heart, breathing, healthy.	Fitness, control, challenge, heart rate, breathing, performance.	Pulse, speed, score, improve, compare.	Personal best, preferred side, coordination, strength, recovery.	Stamina, flexibility, strength, speed, coordination, component of fitness.	Core strength, power, warm-up, cool-down, intensity, monitor.	Evaluate, endurance, training, improve, refine, performance.

Indoor Athletics							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop the fundamental movement skills that provide foundations for later athletics. I can explore throwing objects using underarm and overarm actions. I can jump forwards, backwards and sideways with increasing control. I can explore different ways of jumping and leaping over low objects. I can hop and skip when travelling through a space. I can move safely through space, changing direction and avoiding other people and obstacles. I can begin to	I can perform a seated chest push using a small ball. I can bend my knees and push through my legs when jumping for distance. I can perform a speed bounce over a low marker with increasing control. I can coordinate my body when leaping. I can develop my skipping technique using hoops and other appropriate equipment. I can perform a vertical jump towards targets at different heights. I can cooperate and compete appropriately, individually and as part of a team, in	I can perform a seated chest push with increasing control. I can use my arms and legs together to improve my jumping technique and distance. I can perform a speed bounce over low equipment with control. I can coordinate a sequence of three controlled leaps. I can skip through equipment with increasing control. I can perform a vertical jump towards a target using an appropriate body position. I can take part in team running activities and work with others to	I can perform a chest push using an effective stance and controlled technique. I can use my knees and arms effectively when jumping for distance. I can perform a speed bounce with increasing control and rhythm. I can coordinate my arms and legs when performing five strides. I can skip with control and an effective body position. I can perform a vertical jump using my knees and arms to generate height. I can apply effective running technique to improve my speed.	I can perform a chest push with increasing height, distance and control. I can use my arms and legs effectively when jumping for distance and measure my performance with increasing accuracy. I can perform a speed bounce with increasing speed, coordination and rhythm. I can coordinate my arms and legs when performing five strides and work to increase my distance. I can skip with consistent rhythm and control. I can use an effective squat position to generate power in a vertical jump.	I can perform a chest push using my legs and arms effectively to generate height and distance. I can perform a range of standing jumps, including standing long jump and standing triple jump, and accurately measure my distance. I can perform a speed bounce with consistent rhythm and control. I can coordinate my arms and legs when bounding to increase stride length and distance. I can skip continuously with rhythm, control and increasing speed. I can use an effective arm swing to	I can perform a chest push with accuracy and power, coordinating my legs and arms to increase distance. I can perform a standing triple jump for distance and adapt my technique to improve my performance. I can perform a speed bounce with speed, fluency and consistent rhythm. I can refine my starting position and coordination when performing five strides to improve my performance. I can skip with sustained speed, fluency and control. I can generate explosive power in a vertical jump and land safely and with control.

	recognise that different movements require different amounts of strength and control.	running and athletics activities. I can repeat an activity and try to improve my previous performance.	improve our performance. I can measure or record simple performances and recognise when I have improved.	I can develop an effective relay changeover technique. I can compare my performance with previous attempts and identify an improvement.	I can run and jump over hurdles with increasing speed and control. I can record and compare performances and use this information to identify how I can improve.	increase the height of my vertical jump. I can pass and receive a relay baton with control and appropriate timing during a changeover. I can compare performances and use feedback and measurements to refine my technique.	I can pass and receive a relay baton efficiently during timed and competitive situations. I can accurately measure, record and compare my performances and use this information to refine my technique and achieve a personal best.
Vocabulary	Throw, underarm, overarm, jump, leap, hop, skip, space, land.	Chest push, vertical jump, speed bounce, relay, distance.	Control, coordination, performance, measure.	Technique, stride, rhythm, changeover, personal best.	Hurdles, accuracy, speed, power.	Standing long jump, standing triple jump, bounding, baton.	Explosive power, fluency, refine, evaluate, competitive performance.

Rounders							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop the fundamental movement and coordination that provide foundations for later striking and fielding activities.	I can throw a ball underarm and begin to use an overarm throw.	I can throw underarm accurately and use an overarm throw to increase distance.	I can throw underarm and overarm and catch a ball with increasing accuracy and control.	I can select and use underarm and overarm throws over different distances with increasing accuracy.	I can select an appropriate throw and catch effectively within a game situation.	I can select and execute appropriate throws and catches to influence a game situation.
		I can throw and catch balls of different sizes with increasing control.	I can catch a ball with increasing control.	I can bowl a ball from a short distance using an appropriate underarm action.	I can catch a ball with increasing control and accuracy.	I can develop different bowling techniques and vary the flight of the ball.	I can vary my bowling technique, speed and placement with increasing control.
	I can explore different ways of throwing a beanbag or ball over a short distance.	I can bowl underarm towards different-sized targets.	I can bowl underarm towards a target with increasing accuracy and control.	I can use different pieces of equipment to strike a ball with increasing control.	I can bowl from an appropriate distance with increasing accuracy and consistency.	I can strike a ball into different areas of the playing space with increasing control.	I can strike a ball accurately into different areas and identify space within the field.
	I can develop hand-eye coordination by striking and tracking different objects.	I can develop hand-eye coordination by striking a ball along the floor and through the air.	I can strike a fed or self-fed ball with increasing control.	I can stop a moving ball using two hands and begin to use the long-barrier technique.	I can step into a strike when using a rounders bat to generate greater control and distance.	I can use the long barrier effectively when fielding.	I can use effective fielding techniques, including the long barrier and run-and-scoop, to collect and return the ball quickly.
	I can throw underarm towards a target.	I can move towards, receive and stop a rolling ball using an appropriate body position.	I can move towards and stop a ball using one or two hands.	I can apply simple striking and fielding skills within adapted games.	I can move into position and use the long-barrier technique to field a moving ball.	I can develop the run-and-scoop technique to collect and return a moving ball efficiently.	
	I can roll a ball towards another person with increasing control.	I can take part in adapted striking and fielding games.	I can apply simple striking and fielding skills within adapted games.	I can apply striking and fielding skills within adapted games.	I can communicate and collaborate with teammates when fielding.	I can select and apply appropriate techniques within competitive game situations.	
	I can move towards and stop a rolling ball.	I can begin to recognise simple	I can begin to use simple tactics when striking and fielding.	I can understand and apply basic principles of striking and fielding, including striking into space and	I can collect and return a fielded ball efficiently.	I can discuss and apply tactics for	I can apply attacking principles when striking, including

		tactics when striking and fielding.		positioning myself to field.	I can apply appropriate striking and fielding tactics within adapted games.	both striking and fielding. I can make increasingly effective decisions in response to a game situation.	placement, direction and decision-making. I can apply defensive principles when fielding, including positioning, communication and efficient return of the ball. I can communicate and collaborate with teammates to select and adapt tactics. I can evaluate individual and team performance and identify how our tactics or techniques could be improved.
Vocabulary	Throw, catch, roll, stop, aim, target, underarm, strike.	Overarm, bowl, striking, fielding, batter.	Accuracy, control, feed, tactics.	Long barrier, positioning, space.	Distance, return, collect, technique.	Run and scoop, placement, flight, decision-making, collaborate.	Attacking, defending, tactical, competitive, evaluate, refine.

Swimming and Water Safety							
	EYFS Foundations (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop balance, coordination, body control and confidence in movement that provide foundations for later swimming. I can coordinate different parts of my body when moving. I can maintain balance and control in different positions. I can follow instructions relating to safety during physical activity. I can move confidently in different ways and respond to changes in direction and speed.	I can enter and exit the water safely with support where required. I can move confidently through the water using different actions. I can put my face in the water and begin to control my breathing. I can float in different positions with increasing confidence. I can push and glide through the water from the side of the pool. I can use simple leg and arm actions to propel myself through the water. I can follow instructions and understand basic rules for staying safe	I can enter and exit the water safely and increasingly independently. I can submerge confidently and control my breathing in the water. I can float on my front and back and return to a standing position. I can push and glide with increasing control on my front and back. I can coordinate arm and leg actions to travel through the water. I can swim a short distance using a recognisable stroke. I can identify basic actions to take if I or somebody else gets into difficulty in water.	I can swim increasing distances with greater confidence and control. I can coordinate breathing, arm and leg actions when swimming. I can develop recognisable front crawl and backstroke techniques. I can begin to develop an effective breaststroke action. I can maintain a float and tread water for a short period. I can change direction and body position effectively in the water. I can explain important principles for staying safe in and around water.	I can swim increasing distances continuously and with improving technique. I can use front crawl, backstroke and breaststroke with increasing effectiveness. I can coordinate breathing effectively within different swimming strokes. I can select an appropriate stroke for different swimming activities. I can float and tread water with increasing confidence and control. I can perform simple water-safety and self-rescue activities. I can explain how to respond safely if I or somebody else	I can swim continuously and confidently over increasing distances. I can use a range of swimming strokes effectively, including front crawl, backstroke and breaststroke. I can maintain an effective swimming technique as distance increases. I can select and adapt strokes for different purposes and situations. I can tread water and maintain an effective floating position. I can perform increasingly challenging water-safety and self-rescue activities. I can recognise potential hazards	I can swim competently, confidently and proficiently over a distance of at least 25 metres. I can use a range of swimming strokes effectively, including front crawl, backstroke and breaststroke. I can select an appropriate stroke for different purposes and sustain an effective technique over distance. I can control my breathing effectively when swimming. I can float and tread water confidently and effectively. I can perform safe self-rescue in different water-based situations.

		around a swimming pool.			experiences difficulty in water.	and explain how to behave safely in and around different water environments.	I can recognise potential hazards and explain how to make safe decisions in and around different water environments. I can evaluate my swimming technique and identify how I can improve my efficiency, control or stamina.
Vocabulary	Balance, control, movement, safety, direction.	Water, pool, enter, exit, float, submerge, breathe, push, glide.	Front, back, propel, stroke, breathing, water safety.	Front crawl, backstroke, breaststroke, tread water, technique.	Distance, continuous, effective, self-rescue, water safety.	Stamina, efficiency, hazard, adapt, survival, environment.	Competent, confident, proficient, safe self-rescue, sustain, evaluate.

Outdoor & Adventurous Activities							
	EYFS (Physical Development)	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Substantive knowledge & Skills	Through Physical Development, children develop movement, spatial awareness, problem-solving and cooperation that provide foundations for later outdoor and adventurous activities. I can move safely through different spaces and around obstacles. I can follow simple positional and directional instructions. I can follow a simple route or trail. I can work with another person to complete a simple physical challenge. I can explore different ways of moving over, under, through and around obstacles.	I can follow a simple route using verbal instructions, pictures or symbols. I can use positional and directional language when moving around a space. I can identify and move towards simple markers or checkpoints. I can work with a partner to complete a physical problem-solving challenge. I can communicate simple instructions to another person. I can try a different approach when my first solution does not work. I can follow rules and boundaries to take part safely in outdoor challenges.	I can follow increasingly complex routes using instructions, symbols and simple plans. I can use directional language to guide another person around a route. I can locate a sequence of markers or checkpoints. I can work cooperatively within a small group to solve a physical challenge. I can listen to others and contribute ideas when completing a team task. I can select between different possible solutions to a problem. I can explain what helped me or my team to complete a	I can use a simple map or plan to follow a route. I can recognise and use simple symbols to locate checkpoints. I can orientate myself and a simple map in relation to my surroundings. I can work effectively with others to complete outdoor and adventurous activity challenges. I can communicate clearly when giving and receiving instructions. I can contribute to decisions about how my team will approach a problem. I can recognise when a strategy is not working and suggest an alternative.	I can use a map confidently to navigate between a series of checkpoints. I can use symbols, landmarks and other information to identify my position and direction of travel. I can select an appropriate route to reach a destination. I can communicate and cooperate effectively as part of a team during physical challenges. I can take responsibility for a particular role within a team. I can contribute ideas and select strategies to solve increasingly complex problems. I can adapt our approach when	I can use increasingly detailed maps and information to navigate accurately between checkpoints. I can orientate a map and use landmarks and features to maintain an appropriate route. I can compare possible routes and select an efficient way to reach a destination. I can communicate effectively and contribute to decision-making within a team. I can take different roles, including taking responsibility for leading part of an activity. I can apply logical problem-solving	I can navigate confidently and accurately using maps, symbols, checkpoints and environmental features. I can plan and select an efficient route before beginning a navigation challenge. I can adapt my route appropriately in response to changing circumstances or new information. I can work effectively both independently and as part of a team when completing outdoor and adventurous activity challenges. I can communicate clearly, allocate roles and contribute to effective team decision-making.

	I can make simple choices about how to complete a movement challenge.		challenge successfully.	I can evaluate how successfully I or my team completed a challenge.	circumstances or challenges change. I can evaluate the effectiveness of our strategy and identify improvements.	strategies to increasingly complex physical challenges. I can adapt a strategy in response to new information or changing circumstances. I can evaluate individual and team performance and explain how our approach could be improved.	I can lead others appropriately during a physical or problem-solving challenge. I can select, apply and adapt strategies to solve complex physical problems. I can evaluate the effectiveness of different approaches and explain why one strategy was more successful than another. I can reflect on my own contribution and identify how individual and team performance could be improved.
Vocabulary	Space, direction, route, obstacle, over, under, through, around, team.	Forwards, backwards, left, right, symbol, marker, checkpoint, instructions.	Route, plan, navigate, cooperate, challenge, solution, strategy.	Map, symbol, checkpoint, orientate, landmark, navigation, evaluate.	Route selection, role, strategy, adapt, destination, problem-solving.	Efficient, leadership, decision-making, features, accuracy, responsibility.	Navigation, allocate, strategy, independent, collaborate, adapt, reflect, evaluate.
